During my 5 years in Germany I have completed my postgraduate studies in the Institute of Teachers’ Training in Essen-Werden

I speak German fluently (I have spent 17 years in Germany)

With my initiative and participation, as well as with the participation and assistance of all the teachers of our school (who have directed many intercultural programs) several European programs have taken place in our school:

- Socrates/Arion
- Comenius-Multilateral Partnerships of Schools
- Comenius Assistantship
- Leonardo da Vinci
- Grundvig (Adult Education) – in cooperation with ‘Oikokoinonia’
- Teachers4Europe
- e-Twinning
- “Playing with Protons” – in cooperation with CERN
- Combat Bullying: A Whole School Program - in cooperation with KMOP
- AVIOR project-a spin-off of the SIRIUS European Policy Network
- Nemesis Project – in the frame of Horizon 2020: Education and skills: empowering Europe’s young innovators 2018-2020
- (ERASMUS+KA1) “Copernicus-Gymnasium Löningen”- learning mobility for school education staff
- (ERASMUS+KA3)“Join in and make a change”-in cooperation with the artistic youth organization “Shedia stin poli” (“Raft in the city”)

For 18 years with the students of the 6th grade we publish a school paper (2002-2020). It is a multicultural, colourful school paper which is published every 3 months and it is titled “**The world through the children’s eyes.**” It is distributed for free to all the primary schools in Thessaloniki and to all the Intercultural schools in Greece. Also, it online in the school’s webpage.

A webpage which is my creation with the material gathered in the last decade and which is a useful tool for every educator interested in intercultural education.

Researcher on issues concerning Intercultural education, speaker in many conferences and meetings concerning intercultural education in Greece.
