Considered to be ‘repatriated Greeks’ are those pupils that were born abroad, returned to Greece and have Greek citizenship. The four repatriated Greeks of this school year were born in five countries:

1 in Germany, 1 in Bulgaria 1 in Russia, 1 in Cyprus.

Other Nationalities: 31 from Albania, 1 from Russia, 2 from Georgia, 4 from Syria, 2 from Iraq, 1 from Pakistan.

There are also sixty-eight students among the indigenous pupils whose parents have returned from the former Soviet Union (the parents are repatriated Greeks). Some of those children have serious learning difficulties. The parents have neither the knowledge of nor speak the Greek language and as a result are unable to help the children at home.
