Meeting in Thessaloniki, 4/4/2011 - 11/4/2011

40 Teachers and 25 Students from 13 Countries of Europe

THE ENVIRONMENTAL ACTIVITIES FOR TEACHERS AND STUDENTS

Educational Environmental Centre of Kordelio, 6/4/2011

At the Educational Environmental Centre the teachers were informed about the Center's activities as well as the topics they mostly work on with the schools of the area

School workshop, 6/4/2011

The young eco - citizens used the natural product of ceramic clay and made ancient vases which in ancient times were used for storing or transferring water, olive oil and wine. Also, they created ceramic masks of the ancient Greek theatre. At the start of the workshop, the children watched a small presentation about the products of ancient Greece and the ancient Greek theatre.

School workshop, 6/4/2011

This project didn't focus on the ancient Greek civilization but its aim was to make our little friends realize that the protection of the environment can be achieved through a bio-friendly and sustainable point of view, according to the lifestyle and action of the ancient Greeks.

School workshop, 6/4/2011

Lagadas, 6/4/2011

The participants, both students and teachers, were informed about the history of the Thermal Baths of Lagadas and the history of the Thermal Waters in Greece generally, and then they were taken on a small tour in the location of Lagadas' Thermal Baths.

National Park of Koronia and Volvi Lakes, 7/4/2011

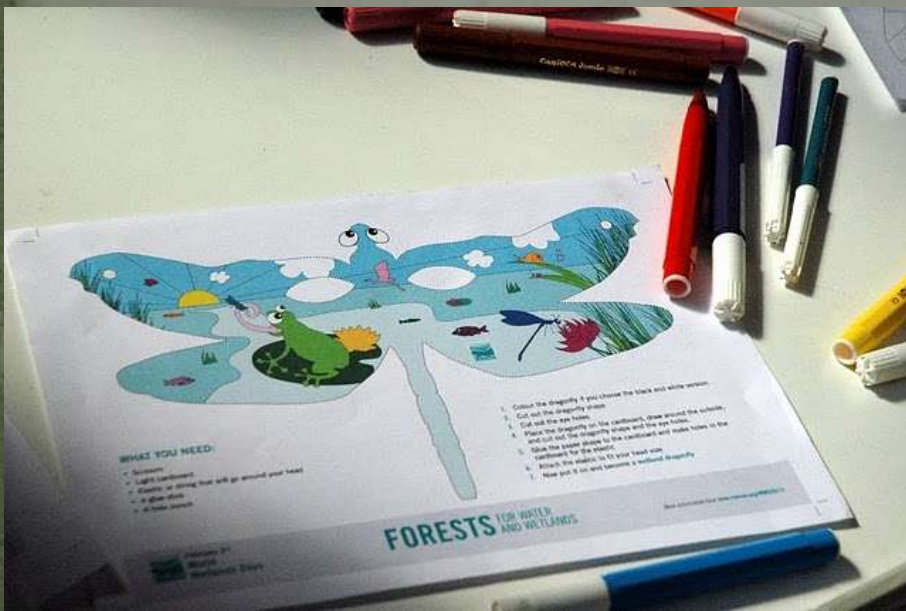

The participants, both students and teachers, visited the exhibition and watched a 20-minute documentary. They were impressed by the rich biodiversity of the area as well as the disappointing situation of Koronia Lake. Then, the students made a mask related to the environment. The visit ended with a bird watching activity by Volvi Lake using a telescope and binoculars and the participants had the chance to walk along the lake.

National Park of Koronia and Volvi Lakes, 7/4/2011

Agathoupoli, 8/4/2011

The teachers and the students of all participating countries had the chance to watch the birds using the telescope and binoculars. Afterwards, the students had an art workshop; drawing birds and coloring stones taken from the river, while the teachers were being informed about the National Park of the Gallikos - Axios - Loudias - Aliakmonas rivers. Then, the teachers and some students walked along the river banks.
